

About the Program Window

The PDF Converter Professional program window contains a Document Panel in the middle, a Navigation Panel on the left side and an Organizer Panel on the right side. The Main Toolbar contains tools grouped by functionality.

Navigation Panel: Optional area that allows you to see and interact with page thumbnails, bookmarks, comments, etc.

Document Panel: The main part of the application that shows the current PDF and allows you to edit, form-fill, annotate, etc. The Document Panel can display more than one PDF document at a time.

Organizer Panel: Working area that allows you to work with stamps, watermarks, clipart, and to use increased security tools such as envelopes, passwords and signing/certifying.

Attachment Panel: This area allows you to manage attachments to the PDF file.

Comments Panel: This area allows you to manage comments added to the PDF file by different authors and reviewers.

View bar: This allows you rotate and change views, change pages, and zoom in or out.
